

TOMORROW THE VETO
UNLESS HE SIGNSTARIFF BILL READY FOR THE
PRESIDENT.

House Back-Down Followed By a Prompt Drafting of the Compromise Measure—The Debate that Led to the Vote—Democrats Exert Pressure on Mr. Cleveland.

WASHINGTON, Aug. 14.—The tariff bill will not go to the president until Wednesday afternoon. It is being enrolled and carefully compared to-day, and will receive the signatures of the vice president and the speaker tomorrow. It is not thought the president will sign it, although great pressure will be brought to bear on him by leading democrats to do so. It is a rare sight at the national capital to have a night session of the house of representatives in August, but, after the passage of the tariff bill yesterday, such a course became a necessity to carry out the program of the democrats. Just as fast as the clerks at the desk could read the bills they were rushed through, free iron being the first. On this proposition the yeas were 163 and the nays 102. After iron was out of the way coal was taken up and a ye and nay vote resulted in 160 for and 104 against. Barbed wire, which was the third article considered, evidently did not have as many friends as the other schedules, for the vote on free barbed wire resulted in yeas, 137; nays, 84. Half an hour was allowed for debate on each of these bills, Chairman Wilson and Mr. Reed each being allotted fifteen minutes to parcel out as they might see fit.

Sugar was reserved for the final struggle. It was 10 o'clock in the evening when the last of the Louisianians raised his voice in favor of a bounty for his people, Mr. Boatner being the orator who spoke for the producers of sugar cane. Then a motion was made for a ye and nay vote on free sugar. Under the guidance of their leader not one of the republicans present voted against the bill, and the vote on the final passage was 267 yeas and 111 nays.

After the announcement of this vote Mr. McMillin of Tennessee was recognized to move an adjournment of the house until Wednesday, and there was no dissenting voice to his suggestion.

Mr. Wilson offered the first of the separate free list bills, in accordance with the resolution adopted by the caucus. It provided for the free admission upon its passage of bituminous coal, shale, slack, and coke. Mr. Grosvenor (Rep., O.) occupied five minutes. Then Mr. Payne (Rep., N. Y.) spoke. Question recurred on the passage of the bill. The vote by tellers showed 78 for and 47 against. Mr. Reed raised the point of no quorum, and Mr. Wilson demanded a ye and nay vote. The free coal bill was passed, yeas, 160; nays, 104; answering present, 1. Twenty-one democrats voted against the bill. Mr. Wilson then said he was directed by the democratic caucus to present the bill placing iron ore on the free list.

Mr. Blair (Rep., N. H.) demanded that Mr. Wilson give the names of such republican senators as had relinquished opposition to the tariff bill on condition that their interests in the bill were looked after. Mr. Wilson said that he had heard the charge, but could give no names.

Representative Cannon (Rep., Ill.) spoke against the bill, the democrats not claiming their time. As soon as he concluded the bill was passed.

Mr. Wilson next presented the bill for free barbed wire. Mr. Reed asked Mr. Wilson what the barbed wire rate was in the Wilson bill, and the answer being 35 per cent, Mr. Reed spoke with sarcasm of the sudden transformation in the tariff.

Mr. Wilson replied with spirit that he would not answer Mr. Reed's scoldings. Mr. Hopkins (Rep., Ill.) and Mr. Gear (Rep., Iowa) spoke against the bill and Combes (dem., N. Y.) for it. Mr. Bryan (dem., Neb.) spoke vigorously for the bill amid much confusion and interruption.

Mr. Pence (pop., Colo.) said the barbed wire trust might suffer from the bill, but the American people would gain. His remarks brought out a sharp controversy with Representative Boutelle.

The vote to place barbed wire on the free list was, Yeas, 187; nays, 84. The following democrats voted against free barbed wire: Graham (N. Y.), Reilly (Pa.), Sperry (Conn.), Stevens (Mass.).

Republicans voting for it were: Wilson (Wash.), Pickler (S. D.), Marsh (Ill.), Lucas (S. D.), Doolittle (Wash.), Mr. Haugen of Wisconsin was the only republican voting for free coal.

Mr. Springer (dem., Ill.) began the discussion of sugar amid great confusion, claiming in refutation of the statement that the senate bill gave the trust greater protection than the McKinley law that the trust had received nearly \$78,000,000 during the three years and three months the McKinley law had been in operation.

Mr. Price (dem., La.) said he would ask for consideration at this late day for 200,000 agriculturists threatened with destruction. If duties could not be retained he asked at least to leave the bounty this year.

Mr. Boatner (dem., La.) said the bounty was a legal obligation for this year.

Mr. Reed (rep., Me.) spoke of the bill in a sarcastic manner. Mr. Wilson

concluded the discussion. He expressed sympathy with the Louisianians, saying he always had believed in a revenue tax on sugar, that the agriculturists were welcome to the incidental protection therefrom, and he stood ready to cooperate with his colleagues in giving a revenue tax.

The yeas and nays were then ordered. The republicans, as stated, joined with the democrats in voting for the free sugar bill. It passed, 276 to 11.

Those who voted in the negative were: Messrs. Boatner, Davey, Meyer, Ogden, Price and Robertson (dems., La.); Everett and Stevens (dems., Mass.); Harner and Rayburn (reps., Pa.), and Sperry (dem., Conn.).

This was the largest affirmative ye and nay vote ever cast in the house of representatives.

PROCEEDINGS IN CAUCUS.

How the Democrats Decided to Accept the Senate Bill.

WASHINGTON, Aug. 14.—Chairman Holman called the democratic caucus to order yesterday. Chairman Wilson took the floor immediately after roll call and made a general statement of the situation. He said each step had been pursued with an ardent desire to support with honor the desires of the house to resist what was regarded as the unreasonable demands of the senate. Mr. Wilson took up the contested schedules, particularly sugar, coal and iron ore, and reviewed the differences in conference on these main items. He took up each proposition on sugar and spoke of the vast profits to the sugar trust which would result from many of these propositions. He did not indulge in the sharp criticism that was expected on the motives of the senate conferees. He made the remarkable statement that he had been credibly informed and believed that the sugar trust had anticipated the enactment of the senate sugar schedule, purchased \$112,000,000 worth of raw sugar. If this was true, he said, the profits accruing to the trust from this investment in advance of the enactment of the senate schedule would be at least \$40,000,000. Mr. Wilson also pointed out at length the embarrassment attending the efforts to adjust the coal and iron schedules.

Mr. Wilson closed at 11:05 o'clock, having talked just an hour. He concluded by saying he had now become satisfied it was either the senate bill or no legislation.

Mr. Montgomery then took the floor and substantiated what Mr. Wilson had said as to the details of the conference. Speaker Crisp followed Mr. Montgomery. He spoke with much spirit and earnestness, and soon the caucus was in a tumult of enthusiasm, round after round of applause greeting his remarks. He spoke of the critical condition and of the apparent need to accept the senate bill and then it came to introduce separate bills for free sugar, free iron, and free coal. Mr. Crisp closed his remarks by offering a resolution instructing the house conferees to recede. Mr. McMillin of the conferees also spoke, indorsing Crisp's position.

Owing to the lateness of the hour a rule was adopted limiting further speeches to five minutes. Then Mr. Cockran delivered a vigorous and eloquent speech against surrendering to the senate. "Better no tariff legislation than the senate bill," he said.

The previous question was demanded on the Crisp resolution and ordered by a vote of 112 to 21. The resolution to recede was adopted—130 to 26. The first part of the resolution was adopted by a rising vote, 130 to 25, and the second part without division.

The negative vote on the first half of the Crisp resolution was as follows: Cochran, Canth, Breckinridge (Ark.), Robertson, Price, Boatner, Meyer, Davey, Ogden, Stone (Ky.), Strauss, Covert, Tarsney, Tracey, Johnson (Ohio), Bartholdt, Barnes (Wis.), Warner, Dunphy, Cummings, Everett, Combs, Talbot, Rayner, Rusk, McKaig.

The resolution of Speaker Crisp as adopted was as follows:

Resolved, That it is the sense of this caucus that the order heretofore made requesting a conference with the senate on the disagreeing votes of the two houses on H. R. 484, be rescinded; that the conferees heretofore appointed on the part of the house be discharged from further duty in that behalf, and that the house recede from its disagreement to the senate amendments to said bill and agree to the same.

Resolved, Further, that the house shall at once proceed to the consideration of separate bills, placing the following articles on the free list—viz.: Sugar in all its forms; iron ore, coal and barbed wire. The committee on rules is requested to report an order providing for the prompt consideration of such motion and bills.

This was adopted by an overwhelming vote, the yeas being almost insignificant. Representative Tucker of Virginia then offered a resolution thanking and commending the house conferees for their loyal service. This was adopted with a shout of approval and the caucus adjourned.

THE DEBATE IN THE HOUSE.

Big Men of Both Sides Have Their Say on the Bill.

WASHINGTON, Aug. 14.—In anticipation of stirring scenes and a lively debate the galleries of the house had filled up at noon yesterday and hundreds of spectators thronged the corridors anxiously awaiting an opportunity to get inside. There was a sudden cessation of the buzzing of conversation when Speaker Crisp resumed the chair and recognized Catch-

ings of Mississippi, who had risen from his chair and was holding aloft a small piece of typewritten manuscript.

It proved to be the much looked for order from the committee on rules, providing (1) that immediately after the adoption of the order it would be in order to consider a resolution discharging the house conferees on the tariff bill from the further duty of considering that measure, and that the house recede from its disagreement in gross to the senate amendments to the bill and agree to the same; and (2) that it shall be in order at any time thereafter to consider bills for free coal, free iron, free sugar and free barbed wire. The resolution allowed two hours' debate on the tariff resolution.

Mr. Reed for the republicans at once made the point of order that the tariff bill was not in possession of the house, and that therefore the action proposed in the report could not be taken. He was answered for the democrats by Judge Henry G. Turner of Georgia. Then on a rising vote as to the adoption of the rule the speaker announced the yeas to be 188 and the nays 3. Instantly there were cries for a division, but before an announcement of tellers could be formulated the democratic side demanded a roll-call, which was ordered without further ceremony. It was a strict party vote that resulted, with the exception of Messrs. Gorman of Michigan and Johnson of Ohio, who voted against the proposition, together with the Louisiana representatives. Most of the populists contented themselves with being recorded as present, but Congressman Newlands of Nevada came out flat-footed in the negative. When the tally was completed the result announced was for the passage of the rule, 176 against 97, present and not voting, 11.

After the vote on the rule had been announced Speaker Crisp left the chair, putting in his place Gen. Tracey of New York. He made the announcement, "The motion now is that offered by the gentleman from West Virginia, and it will be read by the clerk." This motion was for discharging the conferees and adopting the senate amendments. Immediately Mr. Wilson arose and proceeded to open the debate. The main point made in his argument was that the bill, while not perfect, or all that he could wish, was still an improvement on the McKinley bill. "Will the passage of the bill, in your judgments, save the country from the further issue of bonds?" asked Mr. Hudson (pop., Kan.), to which Mr. Wilson replied: "It may be in the first few months of the operation of the bill, because of this great accumulation of raw sugar, to which I have referred, the revenues of the government will not be sufficient to meet the expenditures of the government; but it is my belief, in view of the large amount of imported goods in bond, and also in view of the fact that there will be larger importations when the tariff rates are definitely known and fixed, that if the necessity does not exist to-day it will not exist after the passage of this bill." He concluded as follows: "The question is now raised as to whether this is a government of the American people for the American people or a government of the sugar trust for the benefit of the sugar trust. And this house will show the people, I doubt not, what its position is on that question, and the senate will show the people its position."

Mr. Reed followed the democratic leader. He declared that not a single point in the bill had any superiority over the McKinley law, nor was it in the slightest degree what the people of the country wanted. He prophesied the downfall of the democratic party as the result of its action.

Representative McMillin of Tennessee, one of the democratic conferees on the part of the house, defended the bill, showing reductions in a number of articles from the schedules laid down in the McKinley law. He was followed by Representative Burrows of Michigan, member of the ways and means committee. He denounced the action of the democratic caucus as an unconditional surrender to the senate, and was even more bitter than Mr. Reed in his prophesies of calamity to come. Lafe Pence, the Colorado populist, was given a little time by Mr. Wilson. He expressed doubt as to whether President Cleveland would finally approve the bill or not.

Bourke Cockran of New York was the next speaker. He was bitterly and unconditionally opposed to the bill. The New York orator said he had swallowed the bitter pill of income tax for the sake of securing genuine tariff reform, but now found that when the bill was returned from the senate, tariff reform had been left out and only the income tax remained.

Mr. Hopkins of Illinois, representing the republicans on the ways and means committee, spoke against the measure. Representative Johnson of Ohio (dem.) referred to the action taken as a shameful surrender and declared he would not support it. Turner of Georgia (dem.) thought the bill was the best procurable and announced his intention of supporting it. Only a few minutes of time remaining for the republicans Mr. Reed declined to avail himself of it, and Mr. Crisp began his speech. He believed the bill, with the measures for free sugar, coal and iron ore and barbed wire, passed by the house, was the best procurable. He concluded: "We believe the adjournment of this congress without the passage of some tariff bill would be a blow to tariff reform from which it would not recover for years."

ILLINOIS NOT BAD
AS TO HER CROPSHOPEFUL REPORT AS TO THE
CONDITIONS.

The Corn Yield Will Be Nearly as Large as Last Year—Iowa Somewhat Relieved by Rain—Hot and Dry in Kansas and Other Western States.

SPRINGFIELD, Ill., Aug. 14.—The state board of agriculture yesterday issued the following crop bulletin:

"The reports received at the Illinois department of agriculture dated Aug. 1 indicate that the condition of corn at that time was encouraging for 75 per cent of an average yield per acre. The poorest reports come from northern Illinois, where the condition was but 69 per cent of the average condition at this date and was fourteen points below the 1893 condition. In central Illinois the Aug. 1 condition was favorable for 84 per cent, on an average yield per acre three points better than in 1893. In the southern division of the state 73 per cent of an average. Aug. 1 the condition was reported two points below the same date last year. Although the long continued drouth has been very disastrous to corn the extra good condition it was in before the drouth began carried it through much better than often happens, and it is believed the gloomy reports in regard to corn have been greatly exaggerated, so far as Illinois is concerned. The area devoted to corn this year—6,705,178 acres—is 285,690 acres larger than in 1893 and is the largest area reported in Illinois since 1889. When the increased area is taken into consideration it seems probable that the corn crop in Illinois in 1894 will be nearly, if not quite, as large as last year."

HOT AND DRY IN KANSAS.

Weather Bureau Reports Only a Little Precipitation.

TOPEKA, Kan., Aug. 14.—T. B. Jennings, observer of the Kansas weather bureau, yesterday issued the following crop and weather bulletin for the week ending Aug. 13:

"The first days of the week were cool, but the temperature rapidly returned to its torrid condition and the last half of the week has rivaled the last week of July in the eastern half of the state, the week being clear, windless and hot. The effects of the hot drying weather have been generally shown by the whitening blades of corn, the wilting of grapes, the falling of apples, and the browning of the prairies. Corn is being generally cut and shocked. Much of it in the northern counties will be unmarketable. Prairie hay is light, is largely in the stack, and is about half a crop. Leaves are falling rapidly from the fruit and forest trees, and stock water is getting scarce."

Heaviest Rain for Months in Iowa.

BOONE, Iowa, Aug. 14.—The drouth was broken yesterday morning by a three hours' rain, soaking the ground thoroughly. Corn is benefited somewhat and there is now hope for good fall pasturage.

MARSHALTON, Iowa, Aug. 14.—Drouth in this region is now effectually broken. It rained from 3 to 8 a. m. yesterday and another steady downpour set in at noon.

DES MOINES, Iowa, Aug. 14.—The heaviest rain for three months came last night, continuing till 9 o'clock this morning. Indications are for more rain. The rain was accompanied by lightning. Several buildings were struck.

Bad Reports from Ohio.

FINDLAY, Ohio, Aug. 14.—A terrific windstorm swept over a portion of Hancock county south of this city Sunday evening. Forests were torn down, and fences and the corn crop laid low. No casualties are reported.

ALLIANCE, Ohio, Aug. 14.—The iron mills at Irondale have closed down on account of scarcity of water, occasioned by long continued drouth. At Salineville, wells that supply the waterworks basin have practically gone dry, and the village is almost without protection in case of fire. The corn and potato crops are almost complete failures.

Good Rains Fall in South Dakota.

YANKTON, S. D., Aug. 14.—Rain to the depth of an inch fell in all parts of this section of South Dakota last night. It will do late corn a great deal of good and improve hay and pasture to a great extent. Early corn is now being cut and stacked in stalks for winter fodder and farmers are preparing to feed hogs and cattle on wheat. Thrashing is in progress and the yield of oats will average sixteen bushels per acre. Wheat yields about six bushels of fair quality. It is the poorest year for crops since 1860.

Two Engines Wrecked.

BUFFALO, N. Y., Aug. 14.—Two engines backing in a fog to-day came together, with the result that one man was fatally hurt and three others were seriously injured. The accident took place near the city limits, a Lehigh freight and a Buffalo creek switch engine being wrecked. Tony Crankoski, whose injuries are probably fatal, and Anthony Sereski, whose leg is crushed below the knee, were tramps stealing a ride on the freight train. Nick Fisher, car repairer, had an arm and four ribs broken and Engineer George Pitts suffered an injury of the back.

An income tax of 2 per cent on incomes above \$4,000 is provided for; also a tax on corporations of 2 per cent. Whisky is taxed at \$1.10 per gallon and the bonded period fixed at eight years.

No Hope for Recovery in Michigan.

LANSING, Mich., Aug. 14.—The following special crop report was issued by Secretary of State Gardner yesterday: "The bright sunshine, high temperature, and dry weather are telling severely on all crops. The low averages given for corn, potatoes, and meadows and pastures do not fully indicate the damage done. Corn and potatoes are so badly dried up there is no hope of even partial recovery and grass on uplands is burned out and affords no pasture for stock."

A Mother's Rash Deed.

LYONS, Iowa, Aug. 14.—Mrs. Adolph Max and two children, a boy of 5 and child of 1 year, were missed here yesterday and a search has resulted in the recovery of her body from the river, with the smallest child clasp in her arms. The body of the other child was not found. Fear of starvation and lack of employment led to the deed. Her husband is believed to be at Lincoln, Ill. Three little children are left.

Canal Project Goes Over.

EMPRESS EUGENIE

His Visit Excites Much Comment And Wins Sincere Admiration—William Reviews British Troops—Received With Honors at Portsmouth—Sad Accident During a Welsh Regatta.

LONDON, Aug. 14.—Emperor William made a formal visit to the Empress Eugenie last night. His action is much commented upon and praised. At Portsmouth his majesty was received at the dock yard by Admiral Sir Nowell Salmon, K. C. B., V. C., and staff and all the commanding officers of the garrison. The ships in the harbor were dressed with bunting, and guns from the forts and war vessels boomed forth salutes as the emperor landed. After a short inspection of the dockyards the emperor was escorted to a special train which conveyed him to Aldershot camp. Great crowds cheered Emperor William and his party as they rode toward Laffan's plain in order to review the troops. The review was a most successful affair, over twelve thousand troops, including 3,000 cavalrymen, turning out to do honor to the kaiser. The latter wore the uniform of the First (Royal) Dragoons and led that regiment past the saluting point. The emperor then stationed himself beside the duke of Connaught and closely followed the movements of each corps as it passed.

CYCLONE IN OHIO.

Buildings, Forests and Crops Swept Away at North Madison.

GENEVA, Ohio, Aug. 14.—A genuine cyclone struck North Madison early this morning, devastating forests, orchards, buildings, growing crops, etc. The wind struck the ground near the lake and swept a path 100 feet wide and three miles long clear of everything in its way. Heavy hailstones accompanied the storm and smashed thousands of windows. All crops in the track of the storm were utterly destroyed by hail and wind together. The roar of the wind was heard two or three miles away and is described as being something frightful. So far as learned no person was seriously injured.

Gilligan, the four populists who were arrested for holding a political meeting on Sunday and who went to jail, refusing to give bond, were acquitted in Squire Allen's court at West Indianapolis. CITY COUNCIL DID
A BIG NIGHT'S WORKPURCHASE OF THE HALVERSON
PROPERTY APPROVED.

No Additional Saloon License Will Be Granted—Paving of River and Milwaukee Streets Accepted and Other Paving Petitions Heard—Draymen Want a Stand—Orders Adopted.

The approving of the school board's action in purchasing the Halverson property for a high school site; the reports of the city engineer and superintendent of the street paving showing that the work was finished; the adoption of a resolution to the effect that no more licenses be granted except to druggists after August 13, to end July 2, 1895 and the receipts and referring of several petitions relating to paving, electric lights, etc., were the more important measures that the council considered at last night's meeting. Alderman Rich, Smith and Sutherland were the only absentees. City Engineer Bleedorn's certificate that John Martin had laid 3064.13 square feet of pavement on South River street, 4592.89 square feet on South Main street and 37.80 feet for Pitcher's and Ryan's drivers a total of 7694.82 square feet. Curbing on South River street aggregated 638.2 and on Main street 841.3 feet or 1479.5 feet in all. S. Norris reported that the Main street work was completed in accordance with the contract and both reports were referred to the highway and bridge committee, who reported in favor of accepting the same and instructing the clerk to draw up the tax roll and their report was adopted.

About thirty tax payers who reside in Riverview Park petitioned the council to put an electric light near their property, claiming that under the new arrangement "they were left in darkness." The petition was referred to the gas light committee who, asked for further time. Specifications for the paving of West Milwaukee street were presented and referred to the highway and bridge committee, who reported in favor of advertising for bids, the work to be completed by October 1. The petition from East Milwaukee street property owners asking that the street be paved from Main to Division street, was referred to the same committee. Sylvester Morgan and John H. Myers were on hand to oppose the scheme but the referring of the petition ended the thing for the time being.

Draymen Want a Stand.
The draymen sent in a petition asking that they be allowed to stand at corner of any street abutting on Milwaukee on condition that but one dray be on the corner at a time. The highway and bridge committee, to whom the prayer was referred, asked for time to prepare a city ordinance to that effect which was granted.

A statement of the cost of the water works as shown by the company's books and the sworn statement of the president at that date, and of the amount expended each year above receipts or the amount received each year above expenses since August 6, 1888, together with interest on each sum at 7 per cent. per annum up to July 1st, 1894, was read and referred to the fire and water committee, who asked for further time to report. It read:

APPLEBY'S ACTIONS APPROVED.

Ferrin Case and the Beloit Marshal's Case During Its Prosecution.

At the time of the arrest of the Beloit parties charged with an assault on Miss Esther Ferrin of Shopiere, there was great excitement. Large crowds from Turtle and La Prairie went to Beloit, and at one time violence and mob law were feared. Grave charges of misconduct on the part of the Beloit authorities were made. A committee of the residents of the Ferrin neighborhood was appointed to watch the prosecution. The district attorney, W. G. Wheeler, was called in and special counsel was retained to assist. The cases were all disposed of last week and in consideration of the unjust accusations that were made, the committee in charge, and George Ferrin, the father of the assaulted girl, unite with the district attorney and other counsel for the state in the following card:

TO THE CITIZENS OF ROCK COUNTY:—As it has come to our knowledge that it is reported around Rock county that W. H. Appleby, city marshal of Beloit, was shielding the persons charged with an assault on a young lady of this town (La Prairie); aiding them to escape, and neglecting his duty as an officer in the matter; we desire to state that we are acquainted with all the circumstances; that all rumors and statements implying failure and neglect of duty on the part of Mr. Appleby are false and unjust; that he did all that was possible to be done, and we endorse his actions therein.

GEORGE FERRIN,
NICHOLAS SCHENCKE,
JEROME SHIMEAL,
B. H. SMITH.

TO WHOM IT MAY CONCERN: I have personally conducted the trials of the cases against the persons implicated in Esther Ferrin matter and I cheerfully say that W. H. Appleby has so far as I have had an opportunity of knowing conducted himself therein as a faithful, honest and efficient officer of the law and that so far as I can learn he has made every effort to arrest and bring the guilty parties to justice.

Grass Along the C. M. & St. P. Spreads a Blaze—Death of Mrs. D. M. Tallman.

CLINTON, Aug. 14.—A cry of fire caused much anxiety in Clinton Wednesday. The grass along the Milwaukee & St. Paul track west of town caught fire and rapidly spread into the adjoining fields burning some grain and hay stacks. Prompt attention saved other property. Don't forget that Clinton has arisen to the dignity of a laundry that is doing a rushing business. Give it your patronage. Mrs. D. M. Tallman, long a resident of Clinton and vicinity, and a lady highly respected by all who knew her passed away at her home Sunday morning about one o'clock and was buried Monday afternoon. Rev. Mr. Stubbart, her pastor, spoke comforting words, assisted by Rev. Mr. Reynolds. A large circle of friends attended the funeral which was held at her home. She had been a member of the Baptist church for many years and was also an earnest member of the W. C. T. U., which will hold memorial exercises Wednesday afternoon, August 15, at the home of Mrs. J. BUILDINGS BURNED BY FOES.

Incendiary Blaze Reported by South Turtle People—Lively Runaway.

SOUTH TURTLE, Aug. 14.—A brother of Mrs. Charles Everett had his stacks and some buildings burned not long since. It was supposed to be the work of an incendiary. Ed Westby's team made things lively not long since. After turning over and otherwise injuring the wagon to which they were attached they went home. Florence and Dolly Christman have been visiting at Parley Isham's. Ed. Cleghorn visited at Frank Hammond's not long since. Teachers are plentiful. Half a dozen to a school is no exception. Our people had been earnestly hoping that the report that Horatio Murray had sold out was a mistake, but while they extend a cordial welcome to Mr. Brown, the new owner, they are loath to lose Mr. Murray and son and their families. Mr. Murray came here in an early day and during his long residence has made many friends.

FIRE SWEEPS DOWN
ON CAMP DOUGLASJANESVILLE SOLDIER BOYS
HAVE A LIVELY NIGHT.

The First Regiment Ordered to Be Ready to Leave the Military Reservation at a Moment's Notice—Guards Put Out to Check the Swiftly Advancing Blaze.

CAMP DOUGLAS, Aug. 14.—There is considerable excitement in camp on account of the forest fires which are raging in this vicinity. A number of the guard have already gone out to try and down them before they get into camp. We have just received orders to be ready to move on short orders. The fire can be seen quite plainly, and is already on the military reservation. The smoke is so thick that it is almost impossible to see the targets at times. A few of the men are somewhat under the weather, owing to the excessive heat, but there is nothing of a serious nature.

Company A is doing herself proud this year with the large company taken into camp. The first battalion was on the range all day and Company A was right to the front in good scoring. Captain Gibson was the best shot at fixed distance, of the first battalion, making 161 of a possible 200.

Sergeant-Major Miner did not take the back seat for any one in performance of his new office.

Charles Feign, Company A's head cook, was called home this morning by the death of his little child but will be back in a day or two.

There are plenty of kodak fiends in and about camp this year but Company A's is missing this year.

Captain Gibson is giving perfection in the performing of his duties as inspector of small arms.

Little "Snowball" is making lots of amusement for some of the boys.

Captain Glass surprised his whole company by the range work that he did.

Private Root, with 145, and Sergeant Gage with 128, were the two Janesville boys who stood among the first ten in range-work yesterday.

The regiment arrived in camp 500 strong, the largest number of men in several years. Company A has sixty-two men in camp and is the second largest company in camp. Sergeant Nelthorpe was sergeant of the guard for the first day. Captain Gibson has charge of the firing. Captain J. B. Whiting made the largest score the first day with the new Krag-Jorgensen gun making 21 out of a possible 25 at 600 yards. Sergeant Gage making 18 out of 25 at same range, which is considered a good score being the first trial.

HOPE FOR THE HAIRLESS.

Professor Birkholz, of Chicago, Gives Hope to Those Afflicted with Baldness—A "No Cure, No Pay" Treatment.

Professor G. Birkholz, of Chicago, the eminent German specialist, who for years has devoted his time and talent to the study of the hair follicles, and who has evolved the most successful treatment for baldness the world has ever known.

He will carefully examine each case and candidly inform the inquirer whether his hair can be cured and the hair be restored. These examinations are made without charge.

In all cases where there are any hair follicles remaining undestroyed by age or disease the professor will undertake a cure, and if he does not effect a restoration of the hair he will ask no pay.

The remedy is an imported one, and the treatment given by the professor is his own, and cures where all others fail. If your case has been pronounced incurable do not take it as a final answer until you have seen Professor Birkholz and received his opinion.

Many persons have small bald spots through the hair. These increase in area and in time produce baldness. In such cases the hair follicles need nourishment. Prompt treatment will bring them into activity and restore the hair.

The success that has attended Professor Birkholz everywhere enables him to give a positive opinion in each case presented to him. Those who are bald or are threatened with baldness should not delay treatment, but call upon the professor at once. 1011 Masonic Temple Chicago.

Hand this notice to any first-class drug list and he will get the remedy for you at once, if he has not got it in stock.

Oh, What a Surprise!

What an agreeable one, too, is experienced by the hitherto misguided individual who has been ceaselessly but vainly doing for years past in the futile hope of curing constipation, when drastic pills and potions are abandoned for Hostetter's Stomach Bitters, a fatful auxiliary of nature, which does its work without griping or weakening, but always effectually. "Throw physic to the dogs!" and use this benign and thorough laxative, which achieves results which astonish as well as those who use it. Not only a regular habit of body, but complete digestion and assimilation are restored by its use. It regulates the liver and kidneys and counteracts a tendency to rheumatism. In no case where it is possible to overcome it should its use be delayed. Fortify with it against malaria.

D. A. The engine had 148 distinct parts, held together by fifty-two screws. The diameter of the cylinder was but one-twenty-sixth of an inch, and the whole affair, not including the base plate, weighed but three grains.

RUB THE OTHER EYE.

Good Advice of an Engineer Regarding the Removal of Cinders.

Nine persons out of every ten with a cinder or any foreign substance in the eye will instantly begin to rub the eye with one hand while hunting for their handkerchief with the other. They may and sometimes do remove the offending cinder, but more frequently they rub until the eye becomes inflamed, bind a handkerchief around the head and go to bed. This is all wrong. The better way is not to rub the eye with the cinder in it at all, but rub the other eye as vigorously as you like. A few years ago I was riding on the engine of a fast express. The engineer threw open the front window, and I caught a cinder that gave me the most excruciating pain. I began to rub the eye with both hands. "Let your eye alone and rub the other eye" (this from the engineer). I thought he was chaffing me, and worked the harder. "I know you doctors think you know it all, but if you will let that eye alone and rub the other one, the cinder will be out in two minutes," persisted the engineer. I began to rub the other eye; soon I felt the cinder down near the inner canthus, and made ready to take it out. "Let it alone and keep at the well eye," shouted the doctor pro tem. I did so for a minute longer, and, looking into a small glass he gave me, found the offender on my cheek. Since then I have tried it many times, and have advised many others, and never knew it to fail in one instance, unless it was something sharp, as a piece of steel or a substance that cut into the ball and required an operation to remove it.

WELLESLEY'S PRESIDENT.

Sketch of Mrs. Julia J. Irvine, Recently Chosen to the Chair.

Mrs. Julia J. Irvine, who succeeds to the presidential mantle at Wellesley college which last draped the shoulders of Miss Helen M. Shafer, of revered memory, is described as a woman eminently fitted for the high place, by reason of her splendid abilities and endowments. She is tall and straight, with rather a slight figure, and iron-gray hair. Her features are strong and dark, and she moves in a quick, decisive way that is a pronounced characteristic. She is a

Quakeress, and full of the quick and pithy wit that is often found among the quiet and peaceful Friends. The first time she was asked to say grace, after she went to the college, another member of the faculty rather criticised the low voice in which she had spoken the prayer. "Why, Mrs.

Irvine," said the remonstrant, "down at our end of the table we could not hear the grace at all." "No," replied the other quietly, "but I was not speaking to you;" and the conversation was dropped.

Napoleon Fond of Games.

Napoleon is pictured in a rather grotesque light, showing the curious mixture of the greatness and levity of his character in a recent work entitled "Three Emperors," published in London, in which appears the following passage: "Since the poverty-stricken youth, solitary and melancholy, there has remained with him—when chance of development arrived too late—a taste for hand games, noisy and active playfulness. This could not express itself at the right time, and the result is now seen. His 41 years endeavor to accommodate himself to the 18 years of Marie Louise. He is more of a child than she is, with a species of passion for the amusements of a schoolboy. See him on horseback pursuing her in a gallop along the terraces of St. Cloud. The horse bucks, the rider falls and gets up laughing and crying, 'Break-neck.' See him playing a game of football at Malmaison, kicking a football, or amusing himself as 'catch-who-can.' To the life of the cloister prepared for her and which she has wholly accepted she only proposes one amendment—she wishes to ride horseback, a time-honored custom for the princesses of Lorraine ever since they were freed from maternal tutelage. Marie Antoinette has done the same, and one may remember the similar remonstrance of Marie Therese. Napoleon will not leave to anybody else the task of teaching her to manage a horse. It is he who places the empress in the saddle, and, holding the horse by the bridle, runs alongside. When the learner has to some extent found her seat, each morning after breakfast he orders one of his horses to be made ready, jumps upon its back without taking time to fasten his boots, and in the large courtyard where every ten paces a stableman is stationed on orderly duty to guard against every fall he prances near his wife in silk stockings, amusing himself during the gallop with exciting cries, urging on the horses to make them stride out, falling himself more frequently than he wishes."

The New Tale.

"Well, Joseph, did you take my letter to M. de Y—?" "Yes, sir, but I am afraid he won't be able to read it, for he is blind." "Blind?" "Yes, sir. While I was standing right in front of him in his private office he asked me twice where my hat was, and I had it on my head all the time—ha, ha!"—Le Petit Calaisien.

He is very enthusiastic, and promised to come here again before election. In the course of the evening he "warmed it" to the newspapers in a way that will make Evangelist Welch want him for a side partner.

THE "old gent" hates to spend his silver for shoes for the boys, but he must, and often "comes up" with a poor grace. Here is where we shine with dazzling brilliancy, the old man's friend. RISKED THEIR LIVES FOR BOTTLED BEER

TO SECURE THE BEVERAGE
TWO MEN FACE DEATH.

Although They Know that Albany Is a Dangerous Place, Attorney T. S. Nolan and N. B. Robinson Insist that W. J. Hahn Must Pay Up, and Sue to Make Him.

Beer on one's side. Death on the other. Face the death and get the beer; abandon the beer and let some other fellow secure the death.

'Twas such a proposition that confronted two Janesville men this morning.

An untimely taking off don't scare a Janesville man much.

Put him in a twelve-foot ring with death and the grim reaper lays down his scythe every time.

That's why T. S. Nolan and N. B. Robinson didn't tremble as they walked up and down the St. Paul platform this morning. They were waiting for a train that would take them to the slaughter pen but they quailed not. Bound were they for the place where deputy sheriffs are thumped with beer bottles and constables lammed with wagon spokes.

"Albany?" "Yes, that's just the place."

Albanyites More Barly Than Pearly.

'Though Albany is famed for pearls her gates are not pearly. Spell it different; make it "barly." Then you've got 'em. Albany, it will be remembered was the scene of the unpleasantness between Constable Cavanaugh and N. B. Robinson et al on one side and one William J. Hahn et al on the other, in which one side nearly "let all" the others up. Hatchets and heads collided, and beer bottles bruised brutally, and all because the said W. J. Hahn saw fit to trade a mortgage for beer without first applying some of the mortgage on a bill of \$180 held by Mr. Robinson.

The mission of Attorney Nolan and Mr. Robinson this morning was to compel the said W. J. Hahn to give up the beer bottles with which they had stood off the minions of the law, and upon which Constable Cavanaugh levied but secured not. They will probably get them peaceably, as the law is very clear in such cases; but then a man takes his life in his hands when he goes to Albany, you know. The suit is simply the continuation of the legal formalities of the serving of the writ on Hahn.

The Banner Day of All.

We have had great days, been crowded to the doors, and sold hundreds of dollars worth of dry goods in a day, but the day has invariably been nearer Christmas. Never in our lives have we had such a day as we had yesterday. Cheney Brothers' silks were the attraction. From early noon until close of day, we were crowded, packed, jammed. It was impossible to wait on the people. The ladies, and also the gentlemen of this city have come to the conclusion that we are never undersold on any article, and never try to "gull" the public, but we always undersell and always give what we advertise. We will meet and beat any price named by any competitor. Always bear this in mind. We will keep the good word up daily. We like it. BORT, BAILEY & Co.

Greatly Encouraged with Trade.

We have no hesitancy in stating that we are well satisfied with our season's business. As every merchant knows this year, so far, has been much more severe, financially, than the year before, and still we have forged ahead, and will enter the fall and winter trade with renewed effort. We feel so much more encouraged that we have bought much heavier than last year, and we must say at least 33 per cent cheaper. Consequently we can sell 33 per cent cheaper. Our facilities for furnishing fine clothing at least 5 per cent cheaper than any other clothing house in Janesville are so great that the people are all becoming acquainted with them. Our grand fall openings occur August 25 and about September 1. Watch for day and dates. T. J. ZIEGLER.

Price and Quality Tell the Tale.

You owe a duty to yourself and to your wife and children to part with those hard earned dollars where you can get the most for them. Buy your next pair of shoes of Brown Bros. & Lincoln. Compare the price and wearing qualities and convince yourself that we are head and shoulders above the old style dealers.

Dissolution of Partnership.

The firm of Roessling & Clifford have this day dissolved partnership by mutual consent. J. C. Roessling will collect all the outstanding bills the same as heretofore. The business will be continued by J. C. Roessling. JAMES CLIFFORD, J. C. ROESLING.

You May Know It.

Yet we again call your attention to the fact that you are missing the golden opportunity of your life to make \$75 take the place of \$100. It is quite easy at the Janesville Carriage Works.

CHIEF ACHESON'S SKIRTS CLEAR.

Mayor Thoroughgood and the Finance Committee Contradict False Reports.

A report that Chief Acheson has appropriated fees without reporting to the common council, has been set at naught as a factor in the county campaign. The following letters have been received in this connection:

JANESVILLE, WIS., AUG. 13, 1894. VILLAGE PRESIDENT, EVANSVILLE, WIS.: MY DEAR SIR—It having come to my knowledge that Chief of Police Acheson, of this city (an aspirant for sheriff of Rock county) is spoken of as appropriating funds legally belonging to this city, I wish to say there is no such charge, nor do I know of any case wherein any stain or blemish can be attached to Chief of Police Acheson during his long service in this city. I have no particular interest in Mr. Acheson further than his services here, and am glad to place him in a true light to those interested.

JOHN THOROUGHGOOD, Mayor.

It having come to our knowledge that reports derogatory to the character of T. L. Acheson and reflecting upon the manner in which he has discharged his duties as city marshal, are being circulated throughout this county, we take pleasure in stating that in a long acquaintance with Mr. Acheson, and in our official relations with him, we have found him a careful and honest officer and have had no reason to question his integrity, and that we believe such reports to be wholly unfounded. F. S. BAINES, C. D. CHILD, S. B. HEDDLES.

U. S. EXPRESS TO RUN TWO WAGONS

City Business Grows In Volume Until the Addition Is Needed.

Business is pretty good on the United States express company's lines these "billion" August days and the fact shows itself in Janesville by a new horse and wagon that will go into service in a few days and will give the "States" two rigs to do the city business. Fred Kenyon will drive the old wagon as of yore, and Cal. Botsford will divide his time between the office and the new outfit. The securing of a portion of the Northwestern road heretofore leased by the American has helped the United States company immensely on all divisions. The new horse came last night and the wagon will be here tomorrow.

GONE BEFORE THE LAST TRIBUNAL.

Leopold Boniface Feign.

A sad message called Charles M. Feign home from Camp Douglas yesterday, it being the notification of the death of his son, Leopold Boniface Feign, who died at 102 South Main Street yesterday afternoon, aged two months and five days. The funeral was held this afternoon, at 2 o'clock from St. Mary's church and the interment will be in Mount Olivet cemetery.

Funeral of Mrs. Lynch.

The funeral of Mrs. Thomas Lynch was held from St. Patrick's church at 9 o'clock, Rev. Father Collins officiating. The interment was at Mount Olivet, the pall bearers being William Hemming, Henry Hemming, Martin Delaney, Ferdinand Quinn, Martin Dunn and Peter B. Leahy.

James Plunkett.

All that was earthly of James Plunkett was laid to rest at Mount Olivet Sunday afternoon, Rev. Father Collins conducting the services at St. Patrick's church at 1 o'clock. The pall bearers were James Murphy, Edward Quinn, Thomas Vial, John Brand, James Lavin and Martin Howe.

The Gazette's Error.

The name of C. E. Ranous was unintentionally omitted from the buyers of Garland Steel Ranges, which we had published last Saturday. Mr. Ranous was among the first ones to purchase a Garland Range after the ball opened. It did not take him long to see the superiority of the Garland Range, in fact it does not take anyone long as fifty-six people have purchased Garlands from us within the last two weeks. We never do anything by halves. When we attempt to sell an article we succeed, and we never offer an article for sale unless we can stand right behind it and guarantee it to be the best. This is our position exactly with the Garland steel range the best on earth. Our rooster crows every morning. LOWELL HARDWARE CO.

SPITTED ON A LIMB UNTIL HELP CAME

SHOCKING ACCIDENT TO MRS. SHOCKSCHNEIDER.

Falling From an Apple Tree She Was Impaled On a Blunt Stub that Tore an Eight-Inch Gash in the Fleshly Portion of Her Leg—Thirty Stitches Required.

Impaled on the sharp limb of an apple tree that tore an eight-inch gash in the fleshy part of her leg, Mrs. W. Shocksneider hung until her cries brought help. Willing hands lifted her up and disengaged her from the limb, and Dr. W. H. Palmer was summoned. It took between twenty five and thirty stitches to close the wound, which is one so dangerous that it may cause her death. The accident was a peculiar as well as a most shocking and dangerous one. Mrs. Shocksneider, who lives in the town of Milton, was up in a tree picking apples when she slipped from a limb and slid toward the ground feet foremost. Below her was the stub of a limb that had been sawed or broken off. This limb caught her in the inside of the fleshy portion of her right leg and was driven through by the weight of her body and the force of the fall until the bone stopped it. The gash was over seven inches long and the blunt stick had torn it until it was a gaping wound large enough to admit the physician's hand.

"If the stub had not come in contact with the bone," said Dr. Palmer when a Gazette reporter called on him this morning, "it might have inflicted a much worse wound."

Experiments in pigeon-flying recently made on the Italian torpedo boat Aquilla show that the average rate of flight was almost exactly a mile a minute.

Lightning played a curious "freak" at Waterloo, Me., last week. Etta Bealle was struck and instantly killed, while a child, whom she was holding in her lap, was uninjured.

John Hudlum, janitor of the Chicago board of trade building, was born a slave, and died the other day worth \$30,000, most of it made by carefully gathering and selling to feed stores the waste grain left on the floors.

Dr. Cook, who is to go to the Arctic on a trip that combines business with pleasure, says that the cold of New York is more trying to him than the cold of a Greenland winter. The latter is dry, sharp, with the moisture frozen out of the air, but winter in New York, he says, is wet and raw and penetrating.

A new anthropometric test of sensitiveness has been designed by Dr. Galton of London. A band of color,

showing all the sixty-five shades of blue, is slowly passed before the eyes, and the subject makes a dot for every shade detected. As far as the experiments have proceeded, only about twenty shades are generally discovered. In one case, however, a dyer detected about forty.

MYSTERIES!

The Nervous System the Seat of Life and Mind. Recent Wonderful Discoveries.

No mystery has ever compared with that of human life. It has been the leading subject of professional research and study in all ages. But notwithstanding this fact it is not generally known that the seat of life is located in the upper part of the spinal cord, near the base of the brain, and so sensitive is this portion of the nervous system that even the prick of a needle will cause instant death.

Recent discoveries have demonstrated that all the organs of the body are under the control of the nerve centers, located in or near the base of the brain, and that when these are deranged the organs which they supply with nerve fluid are also deranged. When it is remembered that a serious injury to the spinal cord will cause paralysis of the body below the injured point, because the nerve force is prevented by the injury from reaching the paralyzed portion, it will be understood how the derangement of the nerve centers will cause the derangement of the various organs which they supply with nerve force.

Two-thirds of chronic diseases are due to the imperfect action of the nerve centers at the base of the brain, not from a derangement primarily originating in the organ itself. The great mistake of physicians in treating these diseases is that they treat the organ rather than the nerve centers which are the cause of the trouble.

Dr. FRANKLIN MILES, the celebrated specialist, has profoundly studied this subject for over 20 years, and has made many important discoveries in connection with it, chief among them being the facts contained in the above statement, and that the ordinary methods of treatment are wrong. All headache, dizziness, dullness, confusion, pressure, blues, mania, melancholy, insanity, epilepsy, St. Vitus dance, etc., are nervous diseases no matter how caused. The wonderful success of Dr. Miles' Restorative Nerveine is due to the fact that it is based on the foregoing principle.

Dr. MILES' RESTORATIVE NERVEINE is sold by all druggists on a positive guarantee, or sent direct by Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles for \$5, express prepaid. It contains neither opiates nor dangerous drugs.

Hicks—Look at Sniggs flirting with the girls over there. I thought you said he was a woman hater. Wicks—So he is, but the woman he hates is not here.

"Burglars robbed me last night of \$250 worth of jewelry, but they didn't get my cash." "How was that?" "The jewelry was in the burglar-proof safe, and my money was in my wife's pocket."

"Can any little boy here," asked the visitor, "give me an example of the expansion of substance by heat?" "I can," said Tommy. "Our dog's tongue is twice as long now as it was last winter."

"Dearest," said she, "suppose a bull should attack us as we are crossing the pasture, what would you do?" "That's an awful queer question, Mabel. You forget I was the greatest sprinter Yale ever had."

"You seem to be in splendid health," said his friend. "I thought you were suffering from dyspepsia." "So I was," replied Swintles, "but I got hold of the recipes my wife got at a fashionable cooking school and burnt 'em."

In one of the Glasgow schools a young boy came himself for admittance. The head master asked his name. The boy in reply said his name was Jock. "But what is your father's name?" "My fayther's ca'd efter me."

A gentleman who had been allured by the announcement of a quiet country hotel in the North of England came down the morning after his arrival complaining that his boots had been outside his door all night and until 8 o'clock that morning and nobody had touched them. The landlord, who, in his shirt sleeves, was tipped back in a chair, beamingly remarked: "Law bless ye, sir, ye might left yer purse out there all night; nobody would have touched it. Honest folk down here, I tell ye."

THE official reports show that no baking powder received an award over the Royal at the Chicago World's Fair.

The judge of awards on baking powder writes that the claim by another company to have received the highest award is false; that no such award was given to it.

The Royal Baking Powder is the purest and strongest baking powder made, and has received the highest award at every fair, wherever exhibited in competition with others.

FEMININITIES.

Lewis Schiller, of Allentown, Pa., is the father of twenty children, seventeen of whom are living.

A little girl was punished for doing wrong, when she said: "Oh, those commandments do break awfully easy!"

You can always tell the novice in love-making when he asks for "just one kiss." As though such a thing ever existed!

Grace—You asked me to marry you. Can you not read your answer in my face? Ned, cruelly—Yes; it is very plain.

When you see a young man and woman walking down the street, leaning on each other like a pair of badly-matched oxen, it is a pretty good sign that they are bent on consolidation.

There is a woman in San Francisco who makes a business of hunting up missing heirs to estates. She travels all over the country and has been very successful, deriving, it is said, a handsome income from her peculiar occupation.

"Brownstone has cured his wife of everlasting talking." "How, for goodness sake?" He told her that she looked prettier with her mouth closed, and now she can hardly be induced to utter a syllable."

An eminent doctor has said that the very best physical exercise for keeping a young girl in perfect health is

riding. This, however, is only obtainable by a small percentage of girls. Next to it, for healthfulness the same authority places fencing.

The editor of a Boston paper gives this bit of advice to his readers of the fair sex: A neat way to send kisses to a sweetheart through the mail is to use a pencil when writing; and every time the end of it becomes wet, making, of course a blacker mark, that constitutes a kiss. We used to do this, and nearly every other word was as black as jet.

Pet dogs across the Atlantic are now dyed to harmonize with the prevailing tint of their mistress' boudoir. Two shades of violet form the most popular coloring for white dogs.

VICTORY IS OURS!

WE ALWAYS KNEW THE

GARLAND STEEL RANGE

WAS THE BEST RANGE ON EARTH

Now, we are more thoroughly convinced of the fact than ever before. For the past two weeks we have been placing the Garland against another inferior range which was on exhibition in the city. We sold during the two weeks 66 ranges. How many of the other were there sold? Ask our "small competitor?" We are here yet selling Garland Steel Ranges as fast as we can get them. The traveling fellows have emigrated to greener fields. They could not go against the Garland and Lowell. Wonder what we will have to down next?

This is Our Second Victory.
